

About

SumRidge Partners LLC is a top ranked principal based fixed income market maker, specializing in high yield and investment grade corporate bonds, municipal bonds, institutional preferred securities, emerging market bonds, and non-agency mortgage backed securities. SumRidge Partners was formed in 2010 following the aftermath of the financial crisis and subsequent liquidity shortfall within fixed income trading, operating as a premier, electronic based fixed income market maker, specifically catering to clients that trade in quantities of \$1-2mm and under. SumRidge uses its own balance sheet to facilitate flow trading, ensuring instantaneous execution for our diverse client base. SumRidge currently ranks among the top ten liquidity providers for odd lot trading on most major electronic bond exchanges, leveraging the firm's technological strengths as well as an experienced sales and trading team. In addition to live market making, SumRidge also offers actionable fixed income trade ideas and trading desk commentary to a dynamic distribution platform of institutional, middle market, and wealth management clients worldwide
